NOTES TO CONDENSED INTERIM ACCOUNTS

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("**HKAS**") 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"), as well as the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("**Stock Exchange**") ("**Listing Rules**"). The condensed consolidated financial statements have been prepared on the historical cost basis except for investment properties, which are measured at fair values.

The condensed consolidated financial statements does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31st March, 2026.

As at 30th September, 2026, the Group's current liabilities exceeded its current assets by HK$166,095,000.

In view of the above circumstances, the directors have given careful consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern.

The directors of the Company have reviewed the Group's cash flow projection prepared by management, which includes revenue and expenditure growth of the business, working capital needs and, the continuing renewal of the banking facilities. They are of the opinion that, after taking into account the measures implemented or being implemented, the Group will have sufficient working capital to finance its operation and to meet its financial obligations for at least the next twelve months from 30th September, 2026. Accordingly, the directors of the Company believe it is appropriate to prepare the condensed consolidated financial statements of the Group for the period ended 30th September, 2026 on a going concern basis.

As at 30th September, 2026, the Group had unutilised banking facilities of HK$50,767,000. The measures that the Group has implemented or is in the process of implementing include (i) ongoing negotiation for renewal of existing banking facilities and external financing, including but not limited to, obtaining further banking facilities; and (ii) consideration of potential downside risk factors, working capital sensitivities and identified mitigating actions that could be taken to further reduce cash expenditure and meet operating cashflow.

Whether the Group will be able to generate adequate cash flows to continue as a going concern would depend on the successful outcome of the above measures.

Should the going concern assumption be inappropriate, adjustments may have to be made to write down the values of assets to their recoverable amounts, to provide for further liabilities that might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities. The effects of these adjustments have not been reflected in these condensed consolidated financial statements.

2. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the condensed consolidated financial statements for the six months ended 30th September, 2026 are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31st March, 2026, except for the adoption of the following amendments to HKFRS Accounting Standards for the first time for the current period's financial statements.

Amendments to HKFRS 9 and HKFRS 7	*Amendments to the Classification and Measurement of Financial Instruments*
Amendments to HKFRS 9 and HKFRS 7	*Contracts Referencing Nature-dependent Electricity*
Amendments to HKFRS Accounting Standards	*Annual Improvements to HKFRS Accounting Standards – Volume 11*

The application of the amendments to HKFRS Accounting Standards in the current period has had no material impact on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

For sales of cosmetics products and ladies fashion to retail customers, revenue is recognised when control of the goods has been transferred, being at the point when the customer purchases the goods at the retail shops. Payment of the transaction price is due immediately at the point the customer purchases the goods. For sales of ladies fashion to retail customers through sales counters in department stores, the normal credit term is 30 to 60 days upon the customer purchases the goods.

There are no transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at the end of the reporting period.

Operating Segments

Information reported to the executive directors of the Company, being the chief operating decision makers ("**CODM**"), for the purposes of resource allocation and assessment of segment performance focuses on types of goods delivered. The information reported to the CODM is further categorised into different retail shops within Hong Kong and Macau, each of which is considered as a separate operating segment by the CODM. For segment reporting, these individual operating segments have been aggregated into a single reportable segment. The Group has presented the following two reportable segments:

(a) the cosmetics segment engages in the sales of cosmetics; and

(b) the fashion segment engages in the manufacture and sales of ladies fashion.

The accounting policies of the operating segments are the same as the Group's material accounting policies.

Segment performance is evaluated based on reportable segment loss, which is a measure of adjusted loss before tax. The adjusted loss before tax is measured consistently with the Group's profit/(loss) before tax except the change in fair value of investment properties, certain other income and gains, net, central administration costs, interest expense on bank and other borrowings and interest on certain lease liabilities.

No analysis of segment assets and liabilities is presented as the CODM do not review such information for the purposes of resource allocation and performance assessment.

Inter-segment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the prevailing market prices.

Hong Kong profits tax has been provided at the rate of 16.5% on the estimated assessable profits arising in Hong Kong during the period, except for one subsidiary of the Group which is a qualifying entity under the two-tiered profits tax rates regime. The first HK$2,000,000 of assessable profits of this subsidiary are taxed at 8.25% and the remaining assessable profits are taxed at 16.5%.

Certain subsidiaries operating in Macau are subject to Macau complementary tax of 12%, subject to finalisation of the tax liability with the relevant tax authority.

Under the Law of the PRC on Enterprise Income Tax ("**EIT**") (the "**EIT Law**") and Implementation Regulations of the EIT Law, the tax rate of the PRC subsidiaries is 25%.

6. DIVIDENDS

The board of directors did not recommend the payment of any interim dividend in respect of the financial year ending 31st March, 2027 (2026: nil).

7. EARNINGS/(LOSS) PER SHARE

The calculation of the basic earnings per share (2025: loss per share) amount is based on the profit for the period of HK$12,046,000 (2025: loss of HK$40,452,000) attributable to ordinary equity holders of the parent and the weighted average number of ordinary shares of 2,518,001,334 (2025: 2,518,001,334) in issue during the period.

No adjustment has been made to the basic earnings/(loss) per share amounts presented for the 6 months ended 30th September, 2026 and 2025 in respect of dilution as (i) the calculation of diluted earnings per share for the 6 months ended 30th September, 2026 does not assume the exercise of the Company's share options because exercise price of those options was higher than the average market price for shares for the 6 months ended 30th September, 2026; and (ii) the calculation of diluted loss per share for the 6 months ended 30th September, 2025 does not assume the exercise of the Company's share options since their assumed exercise would result in a decrease in loss per share.

8. TRADE RECEIVABLES

The following is an ageing analysis of trade receivables presented based on the invoice date at the end of the reporting period:

11. OTHER BORROWINGS

The Group had an outstanding balance due to directors of the Company of HK$351,400,000 (31st March, 2026: HK$346,450,000) as at the end of the reporting period. This balance is unsecured, interest-bearing at HIBOR +1% per annum and repayable in 2029.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group is a retailer which sells cosmetics products and ladies fashion through our retail network consisting of 83 points of sales in Hong Kong and Macau, to provide quality and value for money cosmetics products and fashion apparel and accessories to a wide range of consumers at cosmetics stores, namely ***Colourmix*** and ***MORIMOR***, and ladies fashion stores, namely ***Veeko*** and ***Wanko***, respectively.

BUSINESS REVIEW

During the six months ended 30th September, 2026 (the "**2026 Interim Period**"), the Group recorded revenue of HK$189,224,000 (2025: HK$204,253,000), representing a year-on-year decrease of 7.4%. During the 2026 Interim Period, the Group recorded a gross profit of HK$87,029,000 (2025: HK$ 96,031,000), representing a year-on-year decrease of 9.4%. The decrease in revenue and gross profit was mainly attributable to the decrease in the number of stores in both cosmetics and fashion segments. The gross profit margin of the cosmetics business remained stable, while the gross profit margin of the fashion business decreased slightly.

During the 2026 Interim Period, the Group achieved a turnaround which recorded a profit after tax of HK$12,046,000, as compared with a loss after tax of HK$40,452,000 for the six months ended 30th September, 2025. The fair value of investment properties increased by HK$29,576,000 during the period. Besides, the Group's other income increased for the 2026 Interim Period, mainly due to a gain of approximately HK$11,860,000 from the disposal of properties in mainland China. On the other hand, the Group focused on cost control, including but not limited to rental costs and administrative expenses, and achieved certain results, leading to a decrease in the Group's selling and distribution costs and expenses compared to same period last year.

Cosmetics Business

As at 30th September, 2026, the Group had 43 ***Colourmix*** and ***MORIMOR*** cosmetics stores (30th September, 2025: 50 stores) in total, of which 39 stores were located in Hong Kong and 4 stores were located in Macau. To revamp its retail network of the cosmetics business, the Group had closed certain underperforming stores during the period. For the 2026 Interim Period, the revenue of the Group's cosmetics business amounted to HK$139,682,000 (2025: HK$150,720,000), representing a year-on-year decrease of 7.3%, and recorded a segment loss of HK$8,286,000 (2025: a loss of HK$13,454,000), representing a significant year-on-year decrease in loss of 38.4%.

Fashion Business

As at 30th September, 2026, the Group had a total of 40 ladies fashion stores (30th September, 2025: 48 stores) under the brands of ***Veeko*** and ***Wanko***, with 38 stores located in Hong Kong and 2 stores located in Macau. During the 2026 Interim Period, the Group had ceased operation of certain underperforming stores. Given that the production of the Group's fashion business was centralized in its self-owned plant in mainland China, the Group was able to mitigate risks and manage costs with flexibility in face of the dynamic retail environment. For the 2026 Interim Period, the revenue of the Group's fashion business amounted to HK$49,542,000 (2025: HK$53,533,000), representing a year-on-year decrease of 7.5% and recorded a segment loss of HK$11,298,000 (2025: a loss of HK$12,705,000), representing a year-on-year decrease in loss of 11.1%.

PROSPECTS

In view of those factors such as Hong Kong residents' continued northbound consumption and overseas travel, it is expected that the Hong Kong retail market will continue to face a challenging environment in the coming year. Despite this, the management has taken a number of swift countermeasures to proactively restore profitability and remains cautiously optimistic about the long-term prospects. The Group will continue to negotiate reasonable rents with landlords to reduce rental costs, close those stores whose leases have expired but have not achieved operational efficiency, and strategically adjust and optimize its retail network. In the year from November 2026 to October 2027, the Group has 51 stores whose leases have expired or will expire, accounting for 63.0% of all store leases. In the current weak retail leasing market, the Group believes that it will have stronger bargaining power to negotiate better rental terms for the Group and reduce overall rental costs.

As the Hong Kong Special Administration Region Government vigorously promotes the tourism industry and actively positions Hong Kong as an "Events Capital," the number of visitor arrivals has steadily increased, injecting strong momentum into the local retail consumer market. The second half of the year marks the traditional peak season for consumption. Starting with the "October 1st Golden Week," Halloween and the "Double 11" shopping festival, followed by a succession of holidays and celebrations including Christmas, New Year's Eve, New Year's Day and the Lunar New Year, consumer sentiment is expected to continue heating up. The Group is fully committed to seizing the immense opportunities presented by the "Events Economy" and is actively deploying promotional strategies to drive comprehensive business growth.

The Group will strive to continuously optimise the product mix of cosmetics and fashion, enhance the attractiveness of its products and provide customers with quality products and sales services, with a view to boosting its overall revenue and gross profit margin. For the cosmetics business, apart from physical retail stores, the Group operates its own e-shop via both website at https://www.colourmix-cosmetics.com and mobile app and will also continue to collaborate with renowned e-commerce platforms, such as Tmall Global, JD.com and Pinduoduo Shop, etc,. At the same time, the Group will continue to provide shopping information and limited-time offers through various social media platforms, including Facebook, Instagram, and Threads, etc., to enhance brand awareness and expand its customer base. The Group will continue to enhance the integration of its online and offline businesses, providing consumers with a more comprehensive and quality shopping experience.

The Group is primarily engaged in the cosmetics and fashion retail businesses, and also holds investment properties and self-occupied properties. According to the valuation conducted by Colliers International (Hong Kong) Limited and Jones Lang LaSalle Corporate Appraisal and Advisory Limited, independent qualified professional valuers, the valuation of these properties totaled HK$664,900,000 as at 30th September, 2026. These properties also provide financial support for the Group. As at 30th September, 2026, the Group's total bank borrowings were approximately HK$190,048,000. Besides, the executive directors of the Company have provided financial support with revolving loan facilities up to HK$375,000,000 to the Group without asset pledged, which also reflects their confidence and support for the Group's future. The Group will continue to prudently manage its financial and cash position. Regarding properties in Mainland China, the Group holds 14 floors (including the basement) of an industrial property located at No. 2, Kejidong Road, High and New Technology Zone, Shantou, Guangdong Province, the PRC. The properties have a total floor area of 27,700 square meters with an estimated value of RMB103,530,000 (equivalent to approximately HK$121,800,000) as at 30th September, 2026.
