	(Unaudited)	(Audited)
	RMB'000	RMB'000

Trade receivables represent receivable arising from the sale of properties. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly by management.

Since the Group's trade receivables are related to a number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the revenue recognition date or invoice date, is as follows:

	30 June 2020 (Unaudited) RMB'000	31 December 2019 (Audited) RMB'000

Based on the evaluation on the expected credit loss rate and gross carrying amount, the directors of the Company are of the opinion that the financial impact of ECLs in respect of these balances is considered immaterial. As at 30 June 2020 and 31 December 2019, the loss allowance for trade receivables was assessed to be minimal.

MANAGEMENT DISCUSSION AND ANALYSIS

GENERAL OVERVIEW

In the first half of 2020, the outbreak of the COVID-19 had a short-term impact on the PRC economy, but the PRC economic development continued to maintain steady growth. As real estate is a major part of the macro economy, the PRC government focused more on city-specific measures regarding market regulation to ensure the steady development of the industry. The PRC government has also pledged to adhere to the principle of housing is “for living in, not for speculation” and facilitate the development of a long-term management mechanism for the real estate market.

Confronted with the ever-changing market environment and the increasingly fierce competition in this industry, the Group grasps the trend and emphasises on the development potential of the city to focus on the mission of “Maintain foothold in Greater Bay Area, based in Dongguan, and service cover the Southern, Central and Eastern Chain area” (立足大灣區，深耕東莞，布局華南、華中及華東地區), thus continuously increasing our land reserve and the development potential of the city. The Group will maintain the business strategy to cater for the market changes.

It is mainly due to an increase in GFA delivered in Heyuan city and the property price in Heyuan city is relatively lower.

Cost of sales

Corresponding to the significant increase in revenue, the cost of sales increased accordingly from approximately RMB633.4 million for the six months ended 30 June 2019 to approximately RMB1,400.5 million for the six months ended 30 June 2020, which resulted from the significant increase in GFA delivered during the six months ended 30 June 2020 as compared to that for the corresponding period in 2019.

Gross Profit and Gross Profit Margin

The decrease in gross profit margin was mainly due to the difference between the product portfolio and regional portfolio of property delivery for the six months ended 30 June 2020.

Other Income and Gains

Other income and gains decreased from approximately RMB15.2 million for the six months ended 30 June 2019 to approximately RMB11.7 million for the six months ended 30 June 2020. Such decrease was mainly due to the decrease in interest income of a loan to a joint venture.

Selling and Distribution Expenses

Selling and distribution expenses increased from approximately RMB31.4 million for the six months ended 30 June 2019 to approximately RMB84.3 million for the six months ended 30 June 2020. Such increase was primarily due to the increase of approximately RMB36.4 million in marketing expense for the six months ended 30 June 2020 as compared to the same period in 2019, which was as a result of the increase in promotion activities held for the six months ended 30 June 2020 for project and brand promotion of the Group.

Administrative Expenses

Administrative expenses increased from approximately RMB122.9 million for the six months ended 30 June 2019 to approximately RMB225.7 million for the six months ended 30 June 2020. Other Expenses

Other expenses increased from approximately RMB3.1 million for the six months ended 30 June 2019 to approximately RMB35.2 million for the six months ended 30 June 2020. Share of Profit or Loss of a Joint Venture

Share of profit or loss of a joint venture turned around from a share of loss of approximately RMB6.0 million for the six months ended 30 June 2019 to a share of profit of approximately RMB133.1 million for the six months ended 30 June 2020, which was primarily due to the income generated from the property delivery of the joint venture in the relevant period.

Finance Costs

Finance cost increased from approximately RMB34.3 million for the six months ended 30 June 2019 to approximately RMB43.8 million for the six months ended 30 June 2020, which was primarily due to the decrease in the interest capitalised for the six months ended 30 June 2020.

Income Tax Expenses

Income tax expenses increased from approximately RMB295.3 million for the six months ended 30 June 2019 to approximately RMB313.1 million for the six months ended 30 June 2020, with effective income tax rate of approximately 58.1% and 50.6% for the respective period. The decrease in effective income tax rate was primarily due to the decrease in current PRC CIT.

Net Profit and Net Profit Margin

Net profit increased from approximately RMB213.3 million for the six months ended 30 June 2019 to approximately RMB305.9 million for the six months ended 30 June 2020, while net profit margin decreased from approximately 16.2% for the six months ended 30 June 2019 to approximately 13.4% for the six months ended 30 June 2020.

Our adjusted net profit for the six months ended 30 June 2020 after excluding listing-related expenses of approximately RMB5.6 million, was approximately RMB311.5 million with net profit margin of approximately 13.7%. The increase in net profit was primarily due to an increase in revenue by approximately 73.0% for the six months ended 30 June 2020 as a result of an increase in properties delivered, which was partially offset by an increase in selling and distribution expenses and administrative expenses by 168.5% and 83.7%, respectively, as compared to those for the six months ended 30 June 2019.

Liquidity and capital resources

The Group operated in a capital-intensive industry and has funded its growth primarily through cash generated from operations including proceeds from the sale of its properties, debt financing and capital contributions from shareholders. The Group's cash requirements relate primarily to acquisitions of lands, properties development, debt repayment, and clearance of all applicable taxes for projects developed.

Going forward, the Group believes that its liquidity requirements will be satisfied by cash generated from its operating activities, banking facilities available to us, and the net proceeds received from the Global Offering (as defined in the Prospectus).

As at 30 June 2020, the Group had a total cash and bank balance (including restricted cash) of approximately RMB1,114.7 million as compared to that of approximately RMB728.8 million as at 31 December 2019. The increase was primarily due to the increase in proceeds from sales of properties. Substantially all of the Group's cash and bank balance are denominated in RMB.

The Group's net current assets were approximately RMB493.4 million and RMB2,059.9 million as at 31 December 2019 and 30 June 2020, respectively. The increase in net current assets was mainly attributable to (i) the increase of prepayment, other receivable and other asset of approximately RMB487.2 million; and (ii) the decrease of contract liabilities of approximately RMB1,273.1 million.

As at 30 June 2020, the Group's borrowings of RMB1,948.0 million (31 December 2019: RMB2,059.0 million) were borrowings with floating interest rates.

Key financial ratios

As at 30 June 2020, the Group's net gearing ratio (calculated as the total borrowings and lease liabilities net of restricted cash, cash and cash equivalents divided by total equity) was approximately 26.5%, which represented a decrease of 56.1 percentage points as compared to approximately 82.6% as at 31 December 2019. The decrease was primarily attributable to the (i) increase in cash and cash equivalents balance as at 30 June 2020; and (ii) decrease in short term and long-term interest-bearing bank and other borrowings and thus an increase in the balance of total equity as at 30 June 2020, which resulted in a better optimised capital structure.

The Group's current ratio was calculated based on its total current assets divided by its total current liabilities as of the respective dates with the ratio at 1.1 times and 1.4 times as at 31 December 2019 and 30 June 2020, respectively.

Foreign exchange risk

Substantially all of the Group's revenue and expenditure are denominated in RMB. As at 30 June 2020, the Group did not enter into any hedging transactions. The Group manages its foreign exchange risk by closely monitoring the movement of the foreign currency rates and will consider hedging significant foreign currency exposure should the need arise.

Interest rate risk

The Group's interest rate risk arises from its long-term borrowings. As all of the Group's borrowings are denominated in RMB, the interest rates on the Group's borrowings are primarily affected by interest-bearing bank and other borrowings. The Group manages its interest rate risk by closely monitoring the trend of interest rate fluctuation and its impact on the Group's interest rate risk exposure, as well as regulating the debt portfolio of the Group.

Pledge of assets

The Group's bank and other borrowings as at 30 June 2020 of approximately RMB1,948.0 million (31 December 2019: approximately RMB2,059.0 million) were secured by certain land held for development for sale, equity interests in certain subsidiaries, properties owned by the Group, properties under development and completed properties held for sale of the Group with total carrying values of approximately RMB3,335.4 million (31 December 2019: approximately RMB3,111.2 million).

Total	4,060,110	5,581,752

- (a) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the customers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the customers, the Group is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted customers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, upon default on mortgage repayments by these customers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the start of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the customers take possession of the relevant properties.

The Group did not incur any material losses during the year in respect of the guarantees provided for mortgage facilities granted to customers of the Group's completed properties held for sale. In the opinion of the directors of the Company that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans principals together with any accrued interest and penalties and accordingly, no financial liability has been made in connection with these guarantees.

- (b) The Group provided guarantees in respect of bank loans granted to certain related companies controlled by Mr. Lun Ruixiang. The respective bank loans were also secured by pledges of certain properties owned by Mr. Lun Ruixiang or by the Group and were guaranteed by Mr. Lun Ruixiang.

In determining whether financial liabilities should be recognised in respect of the relevant financial guarantee contracts, the directors of the Company exercise judgement in the evaluation of the probability of a resources outflow that will be required and the assessment of whether a reliable estimate can be made of the amount of the obligation.

In the opinion of the directors of the Company, the fair values of the financial guarantee contracts of the Group are insignificant at initial recognition and the directors consider that the possibility of the default of the parties involved is remote, and accordingly, no financial liability has been recognised in the financial statements. The guarantees have been released before the listing of the Company in January 2020.

Future outlook

Looking ahead, the Company foresees that the PRC economic development will continue to maintain steady growth. As real estate is a major part of the macro economy, the PRC government will focus more on city-specific measures regarding market regulation, so as to ensure the steady development of the industry as a whole, while different regional markets may further differ in performance, and liquidity is expected to improve gradually.

Looking forward to 2020, the outbreak of the COVID-19 in early 2020 will have a short-term impact on the PRC economy. Under the effective control measures of the PRC government, the epidemic has generally been under control. Due to the differences in the size and structure of the PRC economy, the impact of the epidemic on the economy is higher than that of during the Severe Acute Respiratory Syndrome (SARS) in 2003. The revenue from the service industries such as catering, retail, transportation, and tourism declined significantly. As the global epidemic spreads, trade is affected and resulted in a weaker foreign demand. In order to achieve this year's economic goals, the PRC government will adopt a more proactive monetary and fiscal policy to increase investment, promote consumption and stabilize foreign demand.

The epidemic will also have a short-term impact on sales, development, investment, and cash flow of the real estate industry. Nevertheless, real estate continues to be the backbone for the growth of the PRC economy. The PRC government will introduce more lenient policies to underpin the market and maintain a reasonable growth in real estate investment. The financial policies pertaining to the real estate industry will also remain stable, individual housing loan is expected to increase steadily, and there is room for downward adjustments of mortgage rate. It is expected that market transactions throughout the year will gradually pick up as the market adjusts. During the epidemic, companies of well-established infrastructure and public management outperformed in major cities. Therefore, the value of the economic core will be further highlighted, and the attractiveness of the cities will continue to increase in the future.

The outbreak will also have certain impact on the Group, and the specific impact depends on the duration and development trend of the epidemic situation. The Group will adopt a more aggressive sales strategy by adjusting marketing plans and strategies in a timely manner to intensify its marketing effort. Meanwhile, the Group will continue to strengthen cash flow management, speed up repayments and increase capital turnover rate. By optimizing the operation adjustment, the Group sets to refine and strengthen the management of project timeline.

The Group will also maintain a prudent investment strategy, and ensure sufficient and quality land reserve through proactively participating in urban redevelopment and renewal. The Group will continue to strengthen its presence across the Guangdong-Hong Kong-Macau Greater Bay Area, vigorously boost its market share in regions where the Group has established its presence, gradually extending its outreach across areas with high growth potential such as the Yangtze River Delta, Chengdu-Chongqing and the mid-stream of the Yangtze River.

Faced with new challenges, the Group will pay close attention to the changes in market environment, continue to meet customers's demand as its orientation and concentrate on a balanced and steady development. The Group adheres to the strategy of a steady and balanced development and focuses on the mission of "Maintain foothold in Greater Bay Area" (立足大灣區), thus constantly improving operational efficiency and business structure. With a foothold in Dongguan, the Group will continue to focus on developments in Guangdong Province and expand into regions such as the Central China Region.
