SCHEDULE I

Zhihu Inc. Reports First Quarter 2022 Unaudited Financial Results

BEIJING, May 25, 2022 – Zhihu Inc. (“Zhihu” or the “Company”) (NYSE: ZH; HKEX: 2390), the operator of Zhihu, a leading online content community in China, today announced its unaudited financial results for the quarter ended March 31, 2022.

First Quarter 2022 Highlights

- **Total revenues** were RMB743.2 million (US\$117.2 million) in the first quarter of 2022, representing a growth of 55.4% over the first quarter of 2021.
- **Gross Profit** was RMB335.5 million (US\$52.9 million) in the first quarter of 2022, representing a growth of 23.1% over the first quarter of 2021.
- **Average monthly active users (MAUs)**¹ reached 101.6 million in the first quarter of 2022, representing a growth of 19.4% over the first quarter of 2021.
- **Average monthly paying members**² reached 6.9 million in the first quarter of 2022, representing a growth of 72.8% over the first quarter of 2021.

“The successful dual primary listing on the Hong Kong Stock Exchange in April, following our listing on the NYSE in the first quarter of last year, not only marks a new milestone in our development path, but also lays a solid foundation for our sustainable and long-term growth,” said Mr. Yuan Zhou, Chairman of the Board and Chief Executive Officer of Zhihu. “In the first quarter, the fundamental value of Zhihu’s fulfilling content and its content-centric community ecosystem has been further validated through our strong growth in both financial and operating performance. With the “Community ecosystem comes first” strategy, we continued to cultivate additional content verticals. Our interactive algorithm of fulfilling content, combined with refined analysis of user needs, has continued to enhance our understanding of our users, allowing us to address their needs more precisely. At the same time, our iterated tools, creator operations and support helped to further encourage content creation. All the above contributed effectively to boost the sustained vitality and prosperity of our community ecosystem.”

Mr. Wei Sun, Chief Financial Officer of Zhihu, added, “Despite the recent resurgence of COVID-19 and macroeconomic uncertainties, we are delighted to report another solid quarter of performance in the first quarter of 2022, with total revenues up 55.4% year over year. Continuing to benefit from our dynamic community ecosystem and increasing content creation, our revenue structure was further diversified. Our content-commerce solutions and advertising services together contributed 59.8% of total revenues. As our No. 1 growth engine, content-commerce solutions achieved year over year growth of 87.7% in revenue. Vocational training, a new initiative further diversifying our commercialization capabilities, demonstrated promising growth momentum with quarterly revenue contribution exceeding 5% for the first time. During the quarter we maintained our gross margin at 45% in a challenging operating environment. Going forward, we will continue to employ well-managed cost control practices and further improve our operating efficiency, driving the healthy and sustainable growth of our business for the long run.”

First Quarter 2022 Financial Results

Total revenues were RMB743.2 million (US\$117.2 million) in the first quarter of 2022, representing a growth of 55.4% from RMB478.3 million in the same period of 2021. The increase was driven by the expansion of our user base and increase of our average revenue per MAU.

Advertising revenue was RMB217.3 million (US\$34.3 million) in the first quarter of 2022, representing a growth of 1.7% from RMB213.7 million in the same period of 2021. The year-over-year increase was primarily attributable to the expansion of our user base.

Paid membership revenue was RMB221.7 million (US\$35.0 million) in the first quarter of 2022, representing a growth of 75.1% from RMB126.6 million in the same period of 2021. The year-over-year increase was primarily attributable to increases in our overall user base and paying ratio for the period.

Content-commerce solutions revenue was RMB226.8 million (US\$35.8 million) in the first quarter of 2022, representing a growth of 87.7% from RMB120.8 million in the same period of 2021. The strong year-over-year growth was primarily driven by rapid increases in both our user base and average content-commerce solutions revenue per MAU, reflecting our sustainable development of this business line.

*Vocational Training revenue*³ was RMB39.5 million (US\$6.2 million) in the first quarter of 2022, which grew from RMB3.1 million in the first quarter of 2021. The year-over-year growth was primarily driven by a more diversified vocational training course offering, as well as the revenue contributions from companies newly acquired in the second half of 2021.

*Other revenues*³ were RMB37.9 million (US\$6.0 million) in the first quarter of 2022, compared with RMB14.1 million in the same period of 2021. The year-over-year increase was primarily attributable to the continued growth in e-commerce services.

Cost of revenues increased to RMB407.7 million (US\$64.3 million) in the first quarter of 2022 from RMB205.6 million in the same period of 2021. The increase was primarily due to an increase in execution costs for advertising services and content-related costs, as well as an increase in staff costs due to the increased headcount to support our growth. The growth in user traffic in the quarter also resulted in increases in cloud services and bandwidth costs.

Gross profit was RMB335.5 million (US\$52.9 million) in the first quarter of 2022, compared with gross profit of RMB272.7 million in the same period of 2021.

Gross margin in the first quarter of 2022 was 45.1%, compared to 57.0% in the same period of 2021.

Total operating expenses were RMB983.7 million (US\$155.2 million) in the first quarter of 2022, compared with RMB615.1 million in the same period of 2021.

Selling and marketing expenses were RMB506.6 million (US\$79.9 million) in the first quarter of 2022, compared with RMB346.6 million in the first quarter of 2021. The increase was primarily due to higher promotion and advertising expenses related to attracting new users and strengthening Zhihu's brand recognition.

Research and development expenses were RMB166.5 million (US\$26.3 million) in the first quarter of 2022, compared with RMB106.3 million in the same period of 2021. The increase was primarily due to the higher headcount of research and development personnel, as we continued to invest in technical infrastructure, and research and development.

General and administrative expenses were RMB310.6 million (US\$49.0 million) in the first quarter of 2022, compared with RMB162.2 million in the same period of 2021. The increase was primarily due to an increase in share-based compensation expenses, as well as the expense related to our dual primary listing on The Stock Exchange of Hong Kong Limited (the "**Hong Kong Stock Exchange**").

Loss from operations was RMB648.2 million (US\$102.3 million) in the first quarter of 2022, compared with RMB342.5 million in the same period of 2021.

Net loss was RMB614.3 million (US\$96.9 million) in the first quarter of 2022, compared with RMB324.7 million in the same period of 2021.

Adjusted net loss (non-GAAP)⁴ was RMB367.4 million (US\$58.0 million) in the first quarter of 2022, compared with RMB193.6 million in the same period of 2021.

Basic and diluted net loss per ADS was RMB1.02 (US\$0.16) in the first quarter of 2022, compared with RMB3.46 in the same period of 2021.

Cash and cash equivalents, term deposits, restricted cash and short-term investments

As of March 31, 2022, the Company had cash and cash equivalents, term deposits, restricted cash and short-term investments of RMB7.1 billion (US\$1.1 billion), compared with RMB7.4 billion as of December 31, 2021.

Dual-primary Listing in Hong Kong

On April 22, 2022, the Company successfully listed its Class A ordinary shares on the Main Board of the Hong Kong Stock Exchange under the stock code "2390," and the stock short name is "ZHIHU-W".

Share Repurchase Program

The board of directors is confident about the Company's continued growth in the future and announces that it proposes to conduct a share repurchase program of up to US\$100 million available for the coming 12 months, subject to the shareholders' approval for granting a general mandate to the board of directors to repurchase shares and/or ADSs of the Company not exceeding 10% of the total number of issued shares of the Company as of the date of passing of this resolution at the annual general meeting to be held on June 10, 2022 as set forth in the notice of annual general meeting dated May 19, 2022. The Company's proposed repurchases, if approved, may be made from time to time in the open market at prevailing market prices and/or through other legally permissible means, depending on market conditions and in accordance with applicable rules and regulations. The Company plans to fund any such repurchases from its existing cash balance.

- 1 MAUs refers to the sum of the number of mobile devices that launch our mobile app at least once in a given month, or mobile MAUs, and the number of logged-in users who visit our PC or mobile website at least once in a given month, after eliminating duplicates.
- 2 Average monthly paying members for a period is calculated by dividing the sum of monthly paying members for each month during the specified period by the number of months in such period.
- 3 Effective in the first quarter of 2022, the Company separately reported the revenue of its vocational training business, which was formerly included in "revenue – others", in light of the significant growth of the revenue contribution from vocational training to the Company's total revenues. For comparison purposes, the revenue of vocational training business and the revenue in "others" for the first quarter of 2021 have been retrospectively re-classified.
- 4 Adjusted net loss is a non-GAAP financial measure. For more information on the non-GAAP financial measure, please see the section of "Use of Non-GAAP Financial Measure" and the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results" set forth at the end of this press release.

Use of Non-GAAP Financial Measure

In evaluating the business, the Company considers and uses adjusted net loss, a non-GAAP financial measure, to supplement the review and assessment of its operating performance. The Company defines adjusted net loss as net loss adjusted for the impact of share-based compensation expenses, amortization of intangible assets resulting from business acquisition and tax effects of the non-GAAP adjustments, which are non-cash expenses. The Company believes that the non-GAAP measure facilitates comparisons of operating performance from period to period and company to company by adjusting for potential impacts of items, which the Company's management considers to be indicative of its operating performance. The Company believes that the non-GAAP financial measure provides useful information to investors and others in understanding and evaluating the Company's consolidated results of operations in the same manner as it helps the Company's management.

The non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The presentation of the non-GAAP financial measure may not be comparable to similarly titled measure presented by other companies. The use of the non-GAAP measure has limitations as an analytical tool, and investors should not consider it in isolation from, or as a substitute for analysis of, our results of operations or financial condition as reported under U.S. GAAP. For more information on the non-GAAP financial measure, please see the tables captioned “Unaudited Reconciliations of GAAP and Non-GAAP Results” set forth at the end of this press release.

Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. Statements that are not historical facts, including statements about the Company’s beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. In some cases, forward-looking statements can be identified by words or phrases such as “may,” “will,” “expect,” “anticipate,” “target,” “aim,” “estimate,” “intend,” “plan,” “believe,” “potential,” “continue,” “is/are likely to,” or other similar expressions. Further information regarding these and other risks, uncertainties or factors is included in the Company’s filings with the SEC and the Hong Kong Stock Exchange. All information provided in this press release is as of the date of this press release, and the Company does not undertake any duty to update such information, except as required under applicable law.
