Use of Non-GAAP Financial Measures

The Company uses non-GAAP measures, such as adjusted profit/(loss) from operations, adjusted net profit/(loss), adjusted net profit/(loss) per share and per ADS, basic and diluted and adjusted net profit/(loss) attributable to the Bilibili Inc.'s shareholders in evaluating its operating results and for financial and operational decision-making purposes. The Company believes that the non-GAAP financial measures help identify underlying trends in its business by excluding the impact of share-based compensation expenses, amortization expense related to intangible assets acquired through business acquisitions, income tax related to intangible assets acquired through business acquisitions, gain/loss on fair value change in investments in publicly traded companies, gain/loss on repurchase of convertible senior notes, and termination expenses of certain game projects. The Company believes that the non-GAAP financial measures provide useful information about the Company's results of operations, enhance the overall understanding of the Company's past performance and future prospects and allow for greater visibility with respect to key metrics used by the Company's management in its financial and operational decision-making.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP and therefore may not be comparable to similar measures presented by other companies. The non-GAAP financial measures have limitations as analytical tools, and when assessing the Company's operating performance, cash flows or liquidity, investors should not consider them in isolation, or as a substitute for net loss, cash flows provided by operating activities or other consolidated statements of operations and cash flows data prepared in accordance with U.S. GAAP.

The Company mitigates these limitations by reconciling the non-GAAP financial measures to the most comparable U.S. GAAP performance measures, all of which should be considered when evaluating the Company's performance.

For more information on the non-GAAP financial measures, please see the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results."
