During the six months ended 30 June 2025, the CODM (i) assessed the performance of the Group by reviewing the results of four reportable segments (CAM, intelligent sense, investments and other businesses), and (ii) assessed the performance of the operating segments based on a measure of segment results, including adjusted loss before tax of the relevant operating segments. The segment categorization for the six months ended 30 June 2025 is different from prior period ended 30 June 2024. 每股攤薄虧損通過調整發行在外的普通股加權平均數, 以假設所有可能具有攤薄效應的普通股已經轉換而計 算。就購股權而言,假設購股權獲行使時應已發行的 股份數目扣除可按公平值(按相關期內每股平均市價 厘定)發行的股份數目,所得相同的所得款項總額為 無償發行的股份數目。因而產生的無償發行股份數目 計入普通股加權平均數作為分母,以計算每股攤薄虧 損。

截至二零二五年六月三十日止六個月期間,本集團並無已發行潛在可能具有攤薄效應的普通股。截至二零二四年六月三十日止六個月期間,由於所有潛在普通股均具有反攤薄性,因此每股攤薄虧損與每股基本虧損相同。

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all potential dilutive ordinary shares. For the share options, the number of shares that would have been issued assuming the exercise of the share options less the number of shares that could have been issued at fair value (determined as the average market price per share for the respective period) for the same total proceeds is the number of shares issued for no consideration. The resulting number of shares issued for no consideration is included in the weighted average number of ordinary shares as the denominator for calculating diluted loss per share.

For the six months ended 30 June 2025, the Group had no potentially dilutive ordinary shares in issue. For the six months ended 30 June 2024, diluted loss per share was the same as basic loss per share since all potential ordinary shares were anti-dilutive.

管理層討論及分析

業務回顧

本集團是全球付費電視廣播接收的領先安全裝置供應商,通 過銷售可讓終端使用者接收付費電視內容的條件接收模塊(或 視密卡)產品,為全世界付費電視行業設計、開發及營銷安 全裝置。

集團還從事智慧傳感技術業務,專注於智能傳感方向產品和解決方案的研發及銷售;和其他業務專注於集成電路(「IC」)解決方案及新能源領域。

視密卡

二零二五年上半年,本集團視密卡銷售收益與二零二四年上半年持平,約5.7百萬美元(截至二零二四年六月三十日止六個月:5.7百萬美元),佔本集團總收益80.3%。其中最大市場歐洲區的收入佔視密卡總銷售額的81.4%,同比上升2.1%,主要由於東歐運營商訂單按原計劃順利出貨,且東歐及中歐均有運營商新訂單。新興市場銷售同比上升188.4%,主要由於中亞和西亞市場的銷售增長。國內市場銷售同比下降25%,主要因為運營商大客戶的招標延遲導致出貨延至第三季度。

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a leading security devices provider globally for pay-TV broadcasting access. It designs, develops and markets security devices primarily for the pay-TV industry worldwide through sales of conditional access modules, or CAMs, products which provide end users with access to pay-TV content.

The Group is also engaged in intelligent sense technology business which focuses on research, development and sales of smart sensing-oriented products and solutions; and other businesses focusing on integrated circuit ("IC") solution and new energy sectors.

CAM

In the first half of 2025, the Group's revenue generated from CAM sales amounted to approximately US\$5.7 million, which is the same as that in the first half of 2024 (for the six months ended 30 June 2024: US\$5.7 million), accounting for 80.3% of the Group's total revenue. Among that, the revenue from the largest market for CAM, Europe, accounted for 81.4% of CAM's total sales, a year-on-year increase of 2.1%, primarily due to the successful delivery of orders from Eastern European operators as planned, and new orders from both Eastern and Central European operators. Sales in emerging markets increased by 188.4% year-on-year, mainly due to increased sales in Middle Asia and Western Asia. Sales in the domestic market decreased by 25% year-on-year, mainly due to the delay in the bidding process for major operators which has led to the postponement of shipments until the third quarter.

二零二五年上半年羅馬尼亞運營商客戶的出貨佔比增加,且 後續訂單已全部切為新平台。塞爾維亞及波蘭的新客戶在運 營商平台切換的過程中均產生了新的訂單需求。而新興市場 中美洲成功開發新客戶,印度運營商項目於六月底完成送樣, 客戶對產品表示認可。國內有線網關業務方面,集團產品獲 得廣電總局的入網認證,並完成國網的產品規格定義,省網 集成項目按計劃完成部署,預備啟動;有線/衛星轉網口的 單向網關產品完成原型,在多個運營商平台進行原型驗證。 多家地方及頭部運營商已完成送樣,其中重點運營商客戶之 一的訂單雖有延遲但逐漸形成增量,同步亦有其他運營商產 品已獲認證,持續小批量出貨。新業務超寬帶(UWB)集成 解決方案方面,指向性遙控器方案完成,與多家主機廠商進 行產品推介;另UWB無接觸的近場通訊應用政府項目已提 交方案。

年內4K廣播上星帶來國密產品機會,推動多個運營商項目順利進行。簡單看電視網關招標後,除企業客戶批量採購外,消費者項目也隨之推進。儘管多家CA公司精簡架構後導致CA市場縮減,業務模式也集中在為運營商提供系統服務和設備,視密卡產品在維穩的存量市場中尋求新契機。如目前CI+ 2.0 TV覆蓋率上升,USB CI+ Adapter已與多個合作夥伴場測。

In the first half of 2025, the shipment share of Romanian operator customers increased, and all subsequent orders have been switched to the new platform. New customers in Serbia and Poland generated new order demands during the operator platform switch. In emerging markets, new customers were successfully developed in Central America, and the Indian operator project completed sample delivery by the end of June, with customers expressing approval of the products. In the domestic wired gateway business, the Group's products had obtained network access certification from the State Administration of Radio, Film and Television and completed product specification definitions for the national grid. Provincial grid integration projects had been deployed as planned and are ready to be launched. The prototype of the one-way gateway product for cable/satellite to network port had been completed and had been verified on multiple operator platforms. We had completed sample delivery for several local and leading operators. Among them, the orders of one of the key operator customers had been delayed but the number of orders gradually increased. At the same time, other operator products had been certified and continued to be shipped in small batches. In terms of new business of ultra-wideband (UWB) integrated solutions, the directional remote control solution had been completed and had been promoted with multiple host manufacturers. In addition, for the government project of UWB contact-less near-field communication application, a proposal had been submitted.

The satellite broadcast of 4K broadcasting this year had brought opportunities for national encrypted products, promoting the smooth progress of multiple operator projects. Following the Simple TV gateway tender, in addition to bulk purchases by enterprise customers, consumer projects were also advancing. Despite the contraction of the CA market due to structural streamlining by multiple CA companies, business models had shifted to providing system services and equipment for operators. We were seeking new opportunities for CAM products in the stable existing market. For example, with the increasing coverage of CI+ 2.0 TV, we had undergone field testing for USB CI+ Adapters with multiple partners.

智慧感知

本集團於二零二二年開始從事智慧感知業務,專注於提供智能傳感方向產品和解決方案,重點佈局激光雷達、柔性壓力傳感器及其他各類型智能傳感產品。二零二五年上半年,本集團智慧感知銷售收益約為1.4百萬美元(截至二零二四年六月三十日止六個月:2.2百萬美元),較二零二四年上半年下降36.4%,佔本集團總收益的19.7%。

今年上半年在市場競爭愈發激烈的情況下,感知與重點客戶合作的各大自研項目仍能穩步推進,因定制化需求造成測試週期較長,業務及研發通過不斷優化自身交付效率,全力配合大客戶的驗收工作。其中壓感大客戶持續增加且目標群體不斷豐富,新能源車規級解決方案上研發先行優勢突出,嚴格按照上車標準推進中。在執行頭部項目的過程中,建立行業領先的技術服務支援機制,強勢打造集團壓感品牌。

其他業務

二零二五年上半年,本集團集成電路解決方案無銷售收益(截至二零二四年六月三十日止六個月:0.7百萬美元)。集成電路解決方案銷售收益下降主要由於一個重大的投片銷售訂單於二零二四年度完成。

集團在新能源領域積極探索,開發多形態產品以進一步豐富業務線。年內海外市場面向先期調研的東西歐及東南亞市場,積極參展觀展,與多家海外代理商建立了溝通渠道及合作意向,個別已達成樣機訂單,推進產品定制開發。但因複雜的檢測認證程序、生產及物流進度較預期緩慢等因素影響,尚未形成批量訂單。國內拓展的示範性工業園儲能項目初步落地,另有大客戶合作正在洽談中。

Intelligent sense

The Group started to engage in the business of intelligent sense in 2022, focusing on providing products and solutions in the direction of smart sensing, with an emphasis on Lidar, flexible pressure sensors, and other types of smart sensing products. In the first half of 2025, the Group's intelligent sense sales revenue was approximately US\$1.4 million (six months ended 30 June 2024: US\$2.2 million), representing a decrease of 36.4% compared to the first half of 2024 and accounting for 19.7% of the Group's total revenue.

In the first half of this year, with increasingly fierce market competition, we were still able to steadily advance the major self-developed projects in cooperation with key customers. Due to the long test cycle caused by customized requirements, the business and R&D departments continuously optimized their own delivery efficiency and fully cooperated with the acceptance work of major customers. Among them, the number of major pressure-sensing customers continued to increase and the target groups continued to enrich. Our R&D advantages in new energy vehicle-grade solutions were prominent and they were being promoted in strict accordance with the vehicle standards. In the process of executing the leading projects, an industry-leading technical service support mechanism was established to strongly build the group's pressure-sensing brand.

Other businesses

In the first half of 2025, the Group had no revenue derived from IC solutions (six months ended 30 June 2024: US\$0.7 million). The decrease in IC solutions revenue was mainly due to the completion of a major IC taping sales order in 2024.

The Group is actively exploring the new energy sector, developing diverse products to further enrich its business lines. Within the year, we actively participated in exhibitions and visited markets in Eastern Europe, Western Europe, and Southeast Asia, which were targeted for preliminary research as overseas markets. We established communication channels and cooperation intentions with a number of overseas agents, and some had already placed orders for prototypes, promoting customized product development. However, affected by factors such as the complex testing and certification process, and the slower than expected production and logistics progress, we had not yet received any bulk orders. The demonstration industrial park energy storage project we had expanded domestically had been initially implemented, and we were currently in negotiations with other major customers.

Gross profit amounted to US\$4.1 million for the six months ended 30 June 2025, representing a decrease of US\$0.2 million compared to the same period in 2024. 所得税抵免

截至二零二五年六月三十日止期間,所得税抵免總計0.01百萬美元。少量所得税抵免主要與確認了某些暫時性差異的遞延所得税抵免。未計提當期所得税由於集團沒有應納所得税稅額。

期內虧損

截至二零二五年六月三十日止六個月的虧損金額為15.8百萬美元,去年同期為虧損15.1百萬美元。期內虧損主要由於本集團所持有的聯營公司虧損份額,源於其持續投資於研發活動,以及按公平值計量的一家被投資公司重估損失,分別約為10.2百萬美元及2.8百萬美元。

Significant Investment, Material Acquisition and Disposal of Subsidiaries and Associated Companies

As at 30 June 2025, the Group had equity securities investments in a total of six (31 December 2024: six) unlisted companies and had interest in an unlisted fund with an aggregate fair value of approximately US\$11.7 million (31 December 2024: US\$14.7 million).

Details of a significant investment as at 30 June 2025 are disclosed below as the size of this investment exceeded the 5% threshold under paragraph 32(4A) of Appendix D2 to the Listing Rules.

On 19 November 2020, the Group acquired 10% equity interest of X-Times Design Automation Co., LTD ("X-Times"), a company incorporated in the PRC, at a total consideration of RMB5,000,001 (equivalent to US\$752,831). X-Times is mainly engaged in the provision of IC design services, and had in late 2022 launched certain self-developed EDA tools and was in the process of pitching to major IC design industry players.

During the year ended 31 December 2021, X-Times entered into a capital injection agreement with certain independent PRC corporate investors for the subscription of equity interest in X-Times, as a result of which, the equity interest of the Group in X-Times was diluted from 10% to approximately 4.7%. During the year ended 31 December 2022, X-Times had entered into a further capital injection agreement with other independent PRC corporate investors for the subscription of equity interest in X-Times, as a result of which the equity interest of the Group in X-Times was further diluted from 4.7% to approximately 4.2%. During the year ended 31 December 2024, the Group's shareholding interest in X-Times was further diluted from 4.2% to approximately 4.0% as a result of a capital injection agreement entered into between X-Times and certain independent corporate investors in the PRC, who agreed to purchase additional shares in X-Times. As at 30 June 2025, the fair value of the equity interest in X-Times held by the Group was approximately US\$10,429,000, representing 7.8% of the Group's total assets as at 30 June 2025. No fair value gain or loss was recognised in the consolidated income statement of the Group for the six months ended 30 June 2025.

No dividend has been distributed by X-Times since establishment. The investment is not financial assets held for trading. The Group considers its interest held in X-Times as a strategic investment allowing the Group to broaden its IC solutions business segment. The Group will review its investment strategy on a regular basis.

Save for those disclosed in this announcement, there were no other significant investments held by the Group as at 30 June 2025.

OUTLOOK

As a strategic asset in the global arms race, the semiconductor industry played a pivotal role in the tariff war of tech competition between China and the United States during the first half of the year. The potential risks stemming from the impact of restrictions on related industries include changes in terminal market demand, operational costs in manufacturing, and trade clearance cycles, all of which have had a substantial impact on the overall industry landscape. In the semiconductor product landscape, artificial intelligence has driven strong growth, while the long-term trends in the automotive and industrial equipment sectors remain solid, and the consumer electronics sector still has room for recovery.

In the CAM business, the Group will continue to focus on promoting new standards and developing new products to expand into new overseas markets. Domestically, efforts will be made to meet the new technical requirements of the national professional CAM to secure new orders. For the cable TV gateway projects, we will complete deliveries to corporate clients and launch pilot projects for consumer clients, accelerate the progress of cable projects across provinces and cities under the broadcasting system, and promote the implementation of new projects for switching cable one-way gateways to IP-based products. In terms of new products, while solidifying existing UWB project opportunities, the Group will explore more possibilities for smart hardware integration solutions, enrich application scenarios and product dimensions, and expand the target customer bases.

其他業務方面,研發上加快開發智慧能源管理系統,增强系統集成能力,滿足客戶定制開發需求;市場銷售上加大工商儲產品推廣力度,完善產品測試認證,促進示範項目建設,增進意向客戶關係;生產上加强廠家溝通,儘量縮短訂單的生產周期,爭取後續批量訂單落地。

儘管市場增長乏力且競爭激烈,集團各業務線仍能持續發力, 在產品開發及市場開拓上不斷進取,核心存量市場中原有客 戶維穩的前提下,亦斬獲不少新客戶,其中不乏產業中的頭 部企業。今後亦將以優質的產品配套專業的技術服務鞏固並 不懈拓展目標客戶,協同更加審慎的投資管理,充分利用政 策優勢與行業資源,完善集團的發展版圖,全面提升綜合實 力,竭力為股東創造更大的價值。 In the intelligent sense business, we will prepare for mass production of pressure-sensing products by finalizing processes, procedures, and reliability certifications. Among these, we will plan automotive regulations testing and certification for new energy products, and plan medical certification testing for healthcare products. For optical radar systems, we will optimize production lines to enhance capacity, efficiency, and yield rates. We will advance the production process toward large-scale, standardized, and normalized production across multiple dimensions to further expand domestic and international markets. We will continue to maintain relationships with leading clients and strengthen the development of our sales team.

For the other businesses, we will accelerate the development of smart energy management systems in R&D, enhancing system integration capabilities, and meeting customer-specific development needs. In market sales, we will intensify the promotion of industrial and commercial storage products, improving product testing and certification, promoting demonstration project construction, and strengthening relationships with potential customers. In production, we will strengthen communication with manufacturers to shorten order production cycles as much as possible and strive to secure follow-up bulk orders.

Despite sluggish market growth and fierce competition, the Group's business lines continue to make progress. In product development and market expansion, we have made continuous progress. As all major decisions are made in consultation with the members of the Board, and there are three independent non-executive Directors in the Board offering independent perspectives. the Board is therefore of the view that there are adequate safeguards in place to ensure sufficient balance of powers within the Board. The Board will also continue to review and monitor the practices of the Company for the purpose of complying with the CG Code and maintaining a high standard of corporate governance practices of the Company.
