The foregoing shall not apply to the issue of the Placing Shares under the Placing Agreement, nor the issue of H Shares as a result of Macquarie Bank Limited (an affiliate of the Placing Agent) exercising the warrants issued by the Company in accordance with such terms and conditions of the warrants as set out in the Company's circular despatched on July 29, 2025 (the "**Warrant Circular**") to the extent that the right of Exercise Rejection (as defined in the Warrant Circular) is not triggered and exercisable by the Company.

GENERAL MANDATE TO ISSUE THE PLACING SHARES

Under the General Mandate, the Board is authorised to allot and issue up to 15,897,543 H Shares. Up to the date of this announcement, 3,724,800 H Shares have been issued under the General Mandate. As such, the General Mandate is sufficient for allotment and issue of the maximum of 2,405,400 Placing Shares. The Board has approved the Placing under the General Mandate and the issue of the Placing Shares is not subject to the approval of the Shareholders.

REASONS FOR THE PLACING AND USE OF PROCEEDS

The Company is a leading hydrogen energy storage and transport equipment manufacturer in China. The Company develops and manufactures hydrogen energy core equipment used in the entire industrial value chain of hydrogen energy, which consists of its production, storage, transportation, refuelling and use.

Assuming the Placing Shares are fully placed, the estimated gross proceeds from the Placing are expected to be approximately HK\$116.6 million. The estimated net proceeds from the Placing (after deducting all fees, costs and expenses incurred by the Company (including without limitation, the Placing Agent's commission, the Stock Exchange trading fee, the SFC transaction levy and the AFRC transaction levy) to be borne by the Company, and other expenses incurred by the Company, in connection with the Placing) are expected to be approximately HK\$113.3 million. The estimated net Placing Price, after deducting such fees, costs and expenses, is therefore approximately HK\$47.12 per Placing Share.

The Company presently intends to use the net proceeds from the Placing as to (i) approximately 50% for financing investments and cooperation in hydrogen projects in the PRC and overseas; (ii) approximately 40% for working capital and general corporate purposes to support the Group's business operation and growth, including but not limited to (a) payment of salaries, social insurance contributions, housing provident fund and other employee-related expenses, (b) payments to suppliers and service providers, and (c) other operating expenses; and (iii) approximately 10% for repayment of amounts outstanding under existing credit facilities. Such net proceeds from the Placing are anticipated to be fully utilized by December 31, 2027.

As disclosed in the Warrant Circular in relation to the issuance of warrants and warrant shares by the Company (the “**Warrants Issuance**”), the Company has been actively engaged in preliminary collaborations on approximately 7 hydrogen projects across multiple geographies, including China, Australia, Morocco, the United Arab Emirates and Malaysia. These initiatives represent a diverse and strategically positioned portfolio, with potential aggregate investments of over HK\$600 million as the projects progress and mature in the coming two years.

In addition, the Company has also identified and explored other promising overseas hydrogen projects and equity investment opportunities in Egypt, Brazil, Australia and South Korea in connection with, among others, integrated hydrogen production and refueling demonstration stations and water electrolysis hydrogen equipment manufacturing plant with an aggregated investment amount of approximately USD27.5 million, equivalent to approximately HK\$213.7 million. Considering that such hydrogen projects are at a preliminary stage and the Company's ongoing investment and expansion, the aforementioned funding needs represent

only a present scope of identified opportunities and conservative estimate of investment amounts and are expected to grow as the Company continues to promote such hydrogen projects and identifies further opportunities in promising hydrogen energy investment projects and their development.

Considering the potential funding gap between the fund raised by the Company and funding needs of the Group, the Directors considered that the Placing would be in the interests of the Company to raise additional equity funding to broaden its Shareholder base, strengthen the Group's capital base and enhance its financial position and net assets base for long-term development and growth.

The Directors (including the independent non-executive Directors) consider that the Placing Price and the terms and conditions of the Placing Agreement (including the Placing Agent's commission) are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.
