VOLUNTARY ANNOUNCEMENT NOVAUTEK SECURITY ROBOT CONTRIBUTING TO THE SAFETY OF HONG KONG THROUGH TECHNOLOGY

The board of directors (the "**Director(s)**") of Novautek Technologies Group Limited (the "**Company**", together with its subsidiaries, the "**Group**") hereby make this announcement on a voluntary basis to provide shareholders and potential investors of the Company with the comprehensive development and market implementation results in the security patrol robot business of the Group.

Local R&D Empowerment and Customized Security Solutions

As a local technology enterprise in Hong Kong, the Group focuses on the pain points of local security and creates customized solutions based on its research and development ("**R&D**") capabilities in the application. The product realizes the core functions such as 24-hour patrol, monitoring of fire hazards and detection of illegal vehicle parking. In closer line with the unique environmental and policy requirements of Hong Kong, we have developed proprietary technologies such as groundwater contamination detection and obstacle blockage identification to facilitate the intelligent upgrade of local security.

Efficient Implementation in Multiple Scenarios leading to a Comprehensive Improvement in Market Reputation

Relying on high-quality products and efficient services, the Group's business has rapidly expanded to multiple core scenarios such as public housing estates, high-end private residences and public places, earning wide recognition from citizens and customers. It has also been highlighted and reported by many mainstream local medias. The current demand continues to grow and the existing projects that have been implemented lay a solid foundation for market expansion. The future will witness a broader application space and a significant increase in brand influence.

Alignment of Trends and Policies Leadings to the Unlimited Release of Business Potential

At present, global robot technology has been substantially commercialized, and security patrol has become a core growth track. The global market size is expected to exceed US$6.5 billion by 2025. This trend is highly aligned with Hong Kong's strategy of building a "smart city" and strengthening public security, and also responds to the national development direction of "Artificial Intelligence +". The Group promotes the shift of public safety from "passive response" to "active prevention" driven by technologies, injecting strong impetus into Hong Kong's security upgrade, and the Directors believe that the business has broad market prospects and strong growth potential.

By order of the Board
Novautek Technologies Group Limited
Wu Tao
