### **VOLUNTARY ANNOUNCEMENT IN RELATION TO THE ESTABLISHMENT OF “EMBODIED INTELLIGENCE LABORATORY” BY ASIAINFO AND ABB ROBOTICS**

This announcement is made by AsiaInfo Technologies Limited (the “**Company**”, together with its subsidiaries, the “**Group**” or “**AsiaInfo**”) on a voluntary basis to update the shareholders (the “**Shareholders**”) and potential investors of the Company of the latest business developments of the Group.

The board (the “**Board**”) of directors of the Company (the “**Directors**”) is pleased to announce that on 25 January 2026, a grand inauguration ceremony was held for the “Embodied Intelligence Laboratory” (the “**Laboratory**”), a joint initiative by AsiaInfo and ABB Robotics (“**ABB Robotics**”). The Laboratory marks a major step forward in the practical implementation of the strategic cooperation between AsiaInfo and ABB Robotics in physical AI sector. The ceremony was attended by Alibaba Cloud and NVIDIA, both of whom will provide in-depth technological support for the development of the Laboratory. The Laboratory will integrate the leading strengths of AsiaInfo in AI applications, 5G-A communication technology and cyber security as well as the leading strengths of ABB Robotics in robot control, with a focus on cutting-edge areas such as industrial simulation and physical AI that based on the vision-language-action (VLA) large model of Alibaba Cloud and the simulation platform of NVIDIA. It aims to overcome the bottlenecks in perception, decision-making and execution capabilities of intelligent agents in complex real-world scenarios, and to build a full-chain innovation system covering “technology research and development-results transformation-industrial deployment”, accelerating the deployment of physical AI in manufacturing sector comprehensively through multi-party collaboration.

ABB Robotics is one of the world's leading robotics suppliers, offering a comprehensive and integrated portfolio that includes industrial and collaborative robots, autonomous mobile robots (AMRs), controllers, application solutions, services, and equipment. Powered by its intelligent software, ABB's technologies help businesses across industries from automotive to electronics and logistics to become more resilient, flexible, and efficient.

The Board believes that the establishment of the Laboratory will foster deeper collaboration between the Group and its partners including ABB Robotics, Alibaba Cloud and NVIDIA. The Laboratory may serve as a key platform for their continuous enhancement in technological synergies and co-creation of application scenarios, with a view to advancing the implementation of the application scenarios of physical AI in manufacturing sector and setting an industry intelligence benchmark with global influence. It is expected to add further growth opportunities to the Group and is in the overall interests of the Group and the Shareholders as a whole.

**Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**

By order of the Board  
**AsiaInfo Technologies Limited**  
**Dr. TIAN Suning**  
*Chairman and Executive Director*

Beijing, 26 January 2026

*As at the date of this announcement, the Board comprises:*

|                                             |                                                                                |
