During each vesting period, if the Company fails to reach the minimum Performance Assessment Target, the Restricted Shares actually attributable to the Participant in the current year shall not be vested or deferred to the next period, and shall be cancelled.

*(V) Performance assessment requirements at department, business unit, branch company and subsidiary levels*

1. The number of the Restricted Shares that actually may be vested by the Participants for the period is linked to the performance assessment at their business unit, branch company and subsidiary levels (the “Department”). The content, approach and target of performance

assessment at each Department level shall be determined by the Company at the beginning of each assessment year. The Company will conduct annual performance assessment of each Department during the assessment period. Restricted Shares granted to the Participants shall be vested in parts of fully if their Department passes the performance assessment. The performance assessment results at each Department level are classified into four levels: Excellent, Good, Average and To be improved. The vesting coefficients corresponding to each level are as follows:

Level of Department's annual assessment	Excellent	Good	Average	To be improved
Vesting coefficient at department level	100%	80%	50%	0%

Department's total number of actual vesting for the year = Department's total number of the Restricted Shares intended to be vested for the year x vesting coefficient at company level x vesting coefficient at Department level

During each vesting period, if the Restricted Shares that the Participants belong to in the current plan cannot be vested due to assessment reasons, the Restricted Shares shall become invalid and shall not be deferred to the next vesting period.

2. Each functional department shall not establish separate department-level performance assessment requirements. If the company-level performance assessment indicators during the assessment year are achieved, Department's total number of the Restricted Shares actually to be vested for the year = Department's number of the Restricted Shares intended to be vested for the year x vesting coefficient at company level.

If the reserve grant of the Restricted Shares is granted, the performance assessment targets at Department level during each vesting period will be the same as the first grant.

*(VI) Performance assessment requirements at the Participants' individual level:*

Each Department shall establish individual performance assessment scheme for the year applicable to all Participants of the Department and such scheme shall be reported to the Company for approval upon the audit of the human resource department.

After the end of the performance assessment period, the Participants shall be scored based on their Department's actual performance achievement and the Participants' actual work performance. The individual performance assessment results of the Participants are divided into four levels: "Excellent", "Good", "Pass" and "Fail". The vesting coefficients corresponding to each level are as follows:

<b>Assessment standards</b>	<b>Excellent</b>	<b>Good</b>	<b>Pass</b>	<b>Fail</b>
Vesting coefficient at individual level	100%	80%	50%	0

If the Company reaches performance assessment target, the Participants' number of the Restricted Shares actually to be vested for the year = individual's number of the Restricted Shares intended to be vested for the year x vesting coefficient at company level x vesting coefficient at Department level x vesting coefficient at individual level.

The following principles shall be complied with in respect of the Participants' number of the Restricted Shares actually to be vested for the year:

1. The Participants' number of the Restricted Shares actually to be vested for the year shall not exceed the number of the Restricted Shares intended to be vested for the year;
2. All Participants' number of the Restricted Shares actually to be vested for the year within the Department shall not exceed the Department's total number of the Restricted Shares actually to be vested for the year;
3. If the Participants are transferred across the Department during the Valid Period of the 2026 A Share Restricted Share Incentive Scheme, the number of the Restricted Shares granted but not yet vested shall be allocated to the original and new Department's vesting quota based on the duration of service in each, respectively. The vesting number shall be linked to the performance results of the original and new Department, and recorded based on the duration of service in each Department.

If the Restricted Shares that the Participants belong to in the current plan cannot be vested due to assessment reasons, the Restricted Shares shall become invalid and shall not be deferred to the next year.

Performance assessment requirements at the company level, departmental, business unit, branch company and subsidiary levels, as well as performance assessment requirements at the Participants' individual level, shall not include prior financial years (i.e., 2025 or earlier years) within the scope of performance assessment.

***(3). Explanation on reasonableness of the performance appraisal indicators of the Restricted Shares of the Company***

The Company is a professional company engaged in the design, development and testing of very large integrated circuits as well as provision of system solutions to customers. The Company has established and improved product lines such as security and identification IC chips, high reliable memory chips, smart meter ASIC chips, FPGA chips and testing services for IC products, and the products are widely used in numerous fields such as finance, social security, urban public transportation, electronic certificates, mobile payment, anti-counterfeiting traceability, smart phones, security monitoring, industrial control, signal processing and smart computing. As a light-asset company under the Fabless model, the Company built its core competitiveness in design and research and development of IC areas.

At present, the global integrated circuit industry landscape is undergoing profound adjustments. Geopolitical conflicts are intensifying, posing challenges to supply chain stability. Concurrently, domestic industry competition is becoming increasingly fierce, technological iteration is accelerating, and market demands for chip product performance, power consumption, and cost continue to rise. The Company faces dual pressures from a severe external environment and intense market competition. The Company aims to retain its core team through this 2026 A Share Restricted Share Incentive Scheme, enhance employees motivation, foster a competitive and progressive work environment, and ensure the realisation of its future strategic development and operational objectives. Having comprehensively considered relevant factors including the macroeconomic environment, the Company's historical performance, industry development trends, market competition, and future development plans, the Company has established the performance assessment targets for the 2026 A Share Restricted Share Incentive Scheme. The performance assessment targets established under this scheme are deliberately challenging, serving to enhance the Company's competitive edge and galvanise staff motivation. This ensures the fulfilment of the Company's future strategic development and operational objectives. This framework not only bolsters the Company's core competitiveness, optimises operational efficiency, and enhances profitability, but also fully stimulates the initiative and proactivity of key personnel. This drives the Company towards high-quality development, thereby securing the smooth implementation of its future strategic direction and operational objectives, ultimately delivering more efficient and enduring returns for Shareholders.

In addition to the performance assessment at the company level, the Company has also set up a stringent performance assessment mechanism for the Department and each individual employee. By combining quantitative metrics with qualitative assessments, a comprehensive, objective and accurate evaluation of the Participants' working performance during the assessment period can be achieved. During the actual assessment process, the Company shall strictly adhere to the established assessment procedures and standards to evaluate performance at the company, department and individual levels. Ultimately, based on the annual performance appraisal results of the Participants, it shall be determined whether they have met the vesting conditions for restricted shares.

In summary, the Company's appraisal mechanism under the 2026 A Share Restricted Share Incentive Scheme is integrated, comprehensive and practicable. In terms of performance assessment scope, it achieves comprehensive coverage across three levels: company, department, and individual. This approach focuses on the Company's overall operational outcomes while also taking into account departmental collaborative effectiveness and individual work performance. Meanwhile, the Participants are subject to the scientific and reasonable performance indicators, through which the appraisal purpose of the 2026 A Share Restricted Share Incentive Scheme can be achieved.

**X. Accounting treatment on the Restricted Shares**

In accordance with the requirements of the Accounting Standards for Business Enterprises No. 11 – Share-based Payments (《企業會計準則第11號 – 股份支付》) and the Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments (《企業會計準則第22號 – 金融工具確認和計量》), the Company shall, on each balance sheet date during the period from the Grant Date to the vesting

date, revise the number of Restricted Shares expected to be vested according to the latest information such as the change in the number of persons entitled to be vested and the completion of performance indicators, and recognize the services obtained in the current period in relevant costs or expenses and capital reserve according to the fair value of the Restricted Shares on the Grant Date.

***(1). Fair value of the Restricted Shares and the determination method***

In accordance with the Application Case of Share-Based Payments Standards – Grant of Restricted Shares (《股份支付準則應用案例 – 授予限制性股票》) issued by the Accounting Department of the Ministry of Finance of the People's Republic of China and relevant provisions under Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments (《企業會計準則第22號 – 金融工具確認和計量》), an appropriate valuation model must be selected by the Company to measure the fair value of share-based payments for Type II Restricted Shares. On the measurement date of 11 February 2026 (a formal calculation will be performed upon grant), the Company selected the Black-Scholes model to calculate the fair value of share-based payments for Type II Restricted Share. Relevant parameters selected are as follows:

1. Underlying share price: RMB83.21 per share (assuming the closing price of the Company on the Grant Date is the closing price as at 11 February 2026);
2. Validity Period: 12 months, 24 months and 36 months (the period from the Grant Date to the first Exercise Date of each tranche);
3. Historical volatility: 37.93%, 34.32%, 32.27% (using the annualized volatility of Wind semiconductor industry for the latest 12 months, 24 months and 36 months, respectively);
4. Risk-free interest rate: 1.32%, 1.36%, 1.38% (using the 1-year, 2-year and 3-year Treasury Rate of China Government Bond, respectively);
5. Dividend yield: 0.16% (using the 2025-year average dividend yield of the Shenwan Semiconductor Industry).

***(2). Estimated impact on operating performance in each period due to implementation of the Restricted Shares***

The fair value of the Restricted Shares on the Grant Date will be determined by the Company in accordance with the requirements of accounting standards, and the share-based payments under the 2026 A Share Restricted Share Incentive Scheme will be further determined accordingly, which will be amortized according to the

vesting ratio during the implementation of the 2026 A Share Restricted Share Incentive Scheme. The costs of incentive arising from the 2026 A Share Restricted Share Incentive Scheme will be charged to the recurring profit and loss.

According to the requirements of the PRC Accounting Standards, assuming the Company makes the grant of the Restricted Shares on 11 February 2026, the impact of the Restricted Shares under the First Grant of the 2026 A Share Restricted Share Incentive Scheme on the accounting costs for each period is as follows:

Total share-based payments		RMB486.65 million
Number of years of share-based payments		4 years
2026	2027	2028
RMB228.55 million	RMB162.78 million	RMB88.45 million
2029		RMB6.87 million

*Note 1:* The above calculation results do not represent the final accounting costs. The actual accounting costs are related to the Grant Date, the Grant Price and the number of Restricted Shares vested. If a Participant resigns before vesting, or fails to meet the corresponding standards of the performance assessment of the Company or personal performance assessment, the actual number of shares vested will be reduced accordingly and thus lower the share payment. Besides, the possible dilutive effects are brought to the attention of shareholders;

*Note 2:* The final result of the above impact on the Company's operating results will be subject to the annual audit report issued by the accounting firm.

The above calculation does not include the Reserved Grant of Restricted Shares, which amounts to 2,720,000 shares and additional share payment fees will be incurred when the reserved shares are granted.

According to the preliminary evaluation by the Company based on the information available, the amortization of expenses of the Restricted Shares will have an impact on the net profit each year within the validity period. But at the same time, the implementation of the 2026 A Share Restricted Share Incentive Scheme will further enhance the cohesion of employees and team stability, and effectively motivate management team, thereby improving operating efficiency and bringing higher operating performance and intrinsic value to the Company.

The Company is of the view that the adoption of the 2026 A Share Incentive Restricted Share Scheme will aid in achieving the aforesaid goals. The terms of the 2026 A Share Restricted Share Incentive Scheme are consistent with the Group's actual conditions and the industry norm, which aligns with the purpose of the 2026 A Share Restricted Share Incentive Scheme.

### ***Listing Rules Implications***

The 2026 A Share Restricted Share Incentive Scheme constitutes a share scheme under Chapter 17 of the Listing Rules. The Company will comply with the applicable requirements under Chapter 17 of the Listing Rules in respect of the operation of the 2026 A Share Restricted Share Incentive Scheme.

Pursuant to the 2026 A Share Restricted Share Incentive Scheme, the Participants of the 2026 A Share Restricted Share Incentive Scheme include three Directors, namely, Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie, who are connected persons of the Company pursuant to Chapter 14A of the Listing Rules. Therefore, the grant of the Restricted Shares under the 2026 A Share Restricted Share Incentive Scheme involves the grant of the Restricted Shares to connected persons of the Company. As the number of Restricted Shares proposed to be granted to Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie represent about 0.09%, 0.06% and 0.04% of the issued A Shares in the share capital of the Company. The aggregated total number of Restricted Shares and other share awards and options which would result in the shares issued and to be issued in respect of all awards and options granted to Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie in the 12-month period up to and including the date of such grant being all less than 0.1% of the issued A Shares in the share capital of the Company respectively, and thus such grant is not required to be approved by the Shareholders under Rule 17.04(2) of the Listing Rules.

The participation of the above connected persons in the 2026 A Share Restricted Share Incentive Scheme will facilitate the stability and motivation of the Company's core personnel, thereby contributing to the long-term development of the Company, the Directors (including the Independent Directors) are of the view that the proposed grant of Restricted Shares to Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie under the grant of the 2026 A Share Restricted Share Incentive Scheme will achieve the purpose of the 2026 A Share Restricted Share Incentive Scheme, and the terms and conditions of the proposed grant of Restricted Shares to Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie under the First Grant of the 2026 A Share Restricted Share Incentive Scheme are on normal commercial terms, and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

Mr. Shen Mingjie, as Connected Participant under the First Grant of the 2026 A Share Restricted Share Incentive Scheme, abstained from voting on the resolutions in relation to the proposed adoption of the 2026 A Share Restricted Share Incentive Scheme, the 2026 A Share Restricted Share Incentive Scheme Assessment Management Measures and the review and verification of the list of Participants at the Remuneration and Evaluation Committee meeting.

Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie, as Connected Participants under the First Grant of the 2026 A Share Restricted Share Incentive Scheme, have declared their interests in the 2026 A Share Restricted Share Incentive Scheme and abstained from voting on the resolutions in relation to the proposed adoption of the 2026 A Share Restricted Share Incentive Scheme, the 2026 A Share Restricted Share Incentive Scheme Assessment Management Measures and the proposed authorization to the Board to deal with matters relating to the 2026 A Share Restricted Share Incentive Scheme at the Board meeting as a result of their interests. Save for the abovementioned Directors, there is no other Director who is required to abstain from voting on the Board resolutions in relation to the 2026 A Share Restricted Share Incentive Scheme. The Board (including all the Independent Directors) has approved the A Share Restricted Share Incentive Scheme that proposed to grant Restricted Shares to Mr. Zhang Wei, Mr. Shen Lei and Mr. Shen Mingjie.

In the event that any grant of the Restricted Shares under the 2026 A Share Restricted Share Incentive Scheme (i) will result in any grant of awards granted to any Participant(s) representing in aggregate over 1% of the issued Shares of the Company (excluding treasury shares) over any 12-month period up to and including the relevant Grant Date; and/or (ii) will cause the Restricted Shares granted to any Participant(s) who is a Director, chief executive, substantial shareholder of the Company or any of their respective associates, representing in aggregate over 0.1% of the issued Shares of the Company (excluding treasury shares) over any 12-month period up to and including the relevant Grant Date, the Company will comply with the relevant requirements under Chapter 17 of the Listing Rules.

Pursuant to Rule 17.03(13) of the Listing Rules, in the case of capitalization issue, bonus issue, share split, share consolidation or reduction of capital, the scheme documents shall include provisions for adjustments to be made to the exercise or purchase price and/or the number of shares granted as awards under the 2026 A Share Restricted Share Incentive Scheme.

In addition to the adjustment to the Grant Price as required under Rule 17.03(13) of the Listing Rules, the 2026 A Share Restricted Share Incentive Scheme also provides for an adjustment to the Grant Price upon dividend distribution (the “Proposed Adjustment”). The Proposed Adjustment is a mandatory requirement for the Company to comply with under Article 46 of the Management Measures, which states that “where adjustments to the equity price or quantity are required due to stock split or dividend distribution, or for other reasons, the board of directors of the listed company shall make such adjustments in accordance with the principles, methods and procedures stipulated in the equity incentive plan”.

The Company has applied for and has been granted by the Hong Kong Stock Exchange a waiver from strict compliance with Rule 17.03(13) of the Listing Rules in relation to the Proposed Adjustment due to the following factors:

- (1) the 2026 A Share Restricted Share Incentive Scheme only entitles the Participants to acquire A Shares but not H Shares of the Company. According to the opinion from Shanghai Landing Law Office (上海蘭迪律師事務所), the legal advisor to the Company as to the PRC laws, (i) the proposed terms of the 2026 A Share Restricted Share Incentive Scheme are prepared in accordance with the related regulations of the PRC laws and the requirements of the relevant regulatory authorities of the PRC (including but not limited to the CSRC and the Shanghai Stock Exchange), including Company Law, Securities Law, Management Measures, STAR Market Listing Rules and Guidelines for Self-Discipline, and (ii) the Board shall make adjustments and discharge disclosure obligations in relation to Proposed Adjustment in accordance with the requirements of Management Measures;
- (2) the Proposed Adjustment is in line with the market practice in the PRC;
- (3) the proposed terms of the 2026 A Share Restricted Share Incentive Scheme, including the Proposed Adjustment, have been reviewed by Shanghai Landing Law Office (上海蘭迪律師事務所), and approved by the Independent Directors and the Board;
- (4) the adjusted grant price will be equal to the Grant Price (i.e. RMB41.59 per Share) minus the dividend paid. For information purposes only, the Company's dividend distributed in the past three financial years ranged from RMB0.08 per Share to RMB0.135 per Share. The Company does not expect that the Proposed Adjustment will have any material adverse impact on the interests of Shareholders; and
- (5) the terms of the Restricted Share Incentive Scheme will be under close scrutiny by the aforesaid regulatory authorities of the PRC, and they are also subject to approval by the Shareholders at the general meeting and the Class Meetings. The Shareholders will be given the opportunity to make an informed decision as to the adoption of the 2026 A Share Restricted Share Incentive Scheme at the general meeting and the Class Meetings.
