As the Sale of MSTR Call Options was conducted in the open market, the identities of the counterparties to the Sale of MSTR Call Options cannot be ascertained. To the best knowledge, information and belief of the Directors and having made all reasonable enquiries, each of the counterparties to the Sale of MSTR Call Options and their respective ultimate beneficial owner(s) is a third party independent of the Company and its connected persons as at the date of this announcement.

Premium

The aggregate premiums paid by the holders of the MSTR Call Options for the purchase of the 390 MSTR Call Options (the “**Premiums**”) amount to US\$51,210 (equivalent to HK\$399,950). The Premium and Strike Price for purchase and exercise of the MSTR Call Options were determined by the Company based on (i) the average purchase price of approximately US\$127.58 per MSTR Share paid by the Company; (ii) the spot price of approximately US\$133.40 per MSTR Share on the trading date as ascertained in respect of the Sale of MSTR Call Options; (iii) the Investment Plan and the relevant investment policy adopted by the Company in respect of trading and/or investment activities; and (iv) the expected return of the MSTR Call Options.

On the assumption that all the MSTR Call Options are exercised, the Group is expected to recognise a gain of approximately US\$0.92 million (equivalent to approximately HK\$7.19 million) which is calculated on the basis of the difference between the total proceeds from the Sale of MSTR Call Options (including the Premiums received of US\$51,210 (equivalent to HK\$399,950) and, if all the MSTR Call Options are exercised, the total settlement of approximately US\$5.85 million (equivalent to approximately HK\$45.69 million)) amount to a total of approximately US\$5.90 million (equivalent to approximately HK\$46.08 million) and the historic cost of the 39,000 MSTR Shares of approximately US\$4.98 million (equivalent to approximately HK\$38.89 million). The actual gain of the Group as a result of the Sale of MSTR Call Options will depend on the actual sale price per MSTR Share before Expiration Date and will be subject to final audit by the auditors of the Company.

Reasons for and benefits of the Sale of MSTR Call Options

As stated in the announcement of the Company dated 25 February 2026, the Group acquired an investment of a total of 39,000 MSTR Shares at an average cost of approximately US\$127.58 (equivalent to approximately HK\$996.40) per MSTR Share. Although the Group holds a positive attitude towards the long-term development of MSTR, the Group also believes that sale of MSTR Call Options reduce investment risks and enhance returns. Considering the scale of sale of MSTR Call Options is within the Group's existing shareholding of MSTR Shares, so the related risks are covered. Besides, Digital Tech will be able to lock in the Premiums income immediately after the Sale of MSTR Call Options. In light of the attractive Strike Prices over the above-mentioned acquisition costs, the Directors are of the view that the Sale of MSTR Call Options also represents a great opportunity to liquidate part or all of the Group's investments in MSTR and enhance the rate of return of its investment in listed securities.

Given the Sale of MSTR Call Options was conducted in the open market at the then prevailing market prices, the Directors consider that the Sale of MSTR Call Options is on normal commercial terms, fair and reasonable and in the interests of the Company and its shareholders as a whole.

As of the date of this announcement, Digital Tech holds 39,000 MSTR Shares, represent approximately 0.01% of the total number of outstanding shares of MSTR. If all MSTR Call Options are exercised and all underlying MSTR Shares are delivered, Digital Tech will not hold MSTR Shares.
