### **VOLUNTARY ANNOUNCEMENT ENTERING INTO THE STRATEGIC COOPERATION AGREEMENT**

This announcement is made by Nuobikan Artificial Intelligence Technology (Chengdu) Co., Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to inform the shareholders and potential investors of the Company of the updates on the latest business development of the Company.

Recently, the Company entered into a Strategic Cooperation Framework Agreement (the “**Strategic Cooperation Agreement**”) with Inspur Smart City Technology Co., Ltd. (“**Inspur Smart City**”), a domestic leading enterprise in smart city construction and operation. Pursuant to the Strategic Cooperation Agreement, the Company and Inspur Smart City will carry out in-depth AI-driven cooperation centering on core areas such as smart city, urban safety, urban governance, and urban digital infrastructure, with an estimated overall cooperation scale amounted to approximately RMB500 million. At present, the two parties, having reached a high degree of consensus on the cooperation mechanism and core directions, are setting up a dedicated liaison and research and development team, establishing a project promotion mechanism, and focusing on core scenarios such as urban operation management, urban infrastructure lifeline safety project, analysis of urban economic operations, and smart community to jointly develop and implement AI-driven solutions. The parties will also introduce high-quality third-party partners to create a multi-party collaborative industrial system and jointly build a national intelligent benchmark project.

Inspur Smart City has the experience of smart city construction and operation in over 70 cities across China, and the advantages of mature market layout and resource integration. The Company has deeply engaged in the field of artificial intelligence and possesses leading capabilities in research and development and industry application of core technologies such as machine vision, big data analysis and digital twin. NBK-INTARI, the general underlying core technology platform, is highly adaptable and has been commercialized and implemented in various fields such as rail transit operation and maintenance and power grid monitoring. Through the Strategic Cooperation Agreement, the two parties will generate synergistic advantages in core aspects such as technologies, scenarios and the national market.

The Company believes that the entering into of the Strategic Cooperation Agreement is an important strategic deployment of the Company in the field of AI+ smart city, and also marks that the Company's core technologies and solutions have been highly recognized by the industry-leading enterprise. Such cooperation will help the Company establish a replicable and sustainable business synergy mechanism in the fields of smart city, urban governance, and industrial intelligence and rapidly enhance the national market penetration rate and brand influence of the Company's AI technologies, thus laying a solid foundation for the continuous growth of the Company's performance and further strengthening its core competitiveness in the application field of the artificial intelligence industry.

Inspur Smart City is independent of the Group and its connected persons (as defined in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**")). The entering into of the Strategic Cooperation Agreement does not constitute a notifiable transaction or connected transaction of the Company as defined under the Listing Rules. If any subsequent transactions carried out pursuant to the Strategic Cooperation Agreement constitute notifiable transactions or connected transactions of the Company as defined under the Listing Rules, the Company will fulfill the procedures of announcement and/or Shareholders' approval in accordance with the relevant requirements of the Listing Rules.

By order of the Board  
**Nuobikan Artificial Intelligence Technology (Chengdu) Co., Ltd.**
