FURTHER RELEVANT INFORMATION IN CONNECTION WITH THE PREPAYMENTS

By way of supplement, based on the letter issued by KPMG to the Audit Committee and the Board on March 26, 2026, the information and/or supporting documents regarding the Prepayments that KPMG requested, but has not received in full as of March 26, 2026, include:

- (i) *background details of the service providers or vendors and whether there are any relationships or arrangements involving the Group, shareholders or management* — questions regarding the process of identifying the service providers or vendors, the limited or lack of public profile of the service providers or vendors and reasons for selecting these service providers or vendors over other more reputable ones without going through the required tender process; and/or

- (ii) *assessment of the competencies of the identified service providers or vendors to deliver the contracted services or goods, and whether the Group's procurement policies and procedures have been complied with* — questions regarding reasons for having little or no progress in the relevant plans for a prolonged period of time after the advanced payments were made, and whether the scope of services aligns with the Group's business strategies; and/or
- (iii) *whether the level of contract amounts and payment terms are comparable to the market price and terms for similar services or goods offered by other service providers or vendors* — questions regarding the rationale for paying a substantial portion of the contract sum to the service providers or vendors upfront, substantial upfront payment terms, potential higher-than market consideration, and the process of evaluating the reasonableness of the contract amounts in the absence of second quotations.

The IIC is conducting an investigation into the Prepayments, and the Company is actively cooperating with the IIC on the investigation and addressing the questions and concerns raised by KPMG as set out above.

FURTHER RELEVANT INFORMATION IN CONNECTION WITH THE MATERIAL CASH OUTFLOWS SUBSEQUENT TO DECEMBER 31, 2025

The Board would like to provide the Shareholders and potential investors of the Company with further relevant information in connection with the material cash outflows subsequent to December 31, 2025 (the “**Material Cash Outflows**”) as follows.

The Material Cash Outflows amount to approximately US\$57 million and RMB10 million. Based on explanation from the Company's management, a substantial portion of the Material Cash Outflows is allocated for interest-bearing cash deposits, while the remaining portion primarily encompassed various components, including advanced payment for the procurement of next generation sequencing equipment to increase lab testing capacity, procurement of production equipment for newly established manufacturing facility, the potential acquisition of proprietary intellectual properties to expand the Company's product offering, and payments to advisors for their services.

The Material Cash Outflows were identified as part of the subsequent events procedures by KPMG and brought to the attention of the Audit Committee and the Board on March 26, 2026. As of March 26, 2026, KPMG had not yet completed their subsequent event procedures, and had yet to enquire of the management about the explanations, information and/or supporting documents regarding the Material Cash Outflows. Due to the significance of these amounts, KPMG expects the IIC's investigation should cover the Material Cash Outflows.

The IIC and the Company are in the process of reviewing the Material Cash Outflows. Further announcement(s) will be made regarding details in respect of the Material Cash Outflows as and when appropriate.

All information and contents set out in the Announcement remain unchanged and shall continue to be valid for all purposes. This announcement is supplemental to and should be read in conjunction with the Announcement.
