VOLUNTARY ANNOUNCEMENT PRINCIPAL OPERATING DATA AND INDICATORS FOR THE FIRST QUARTER 2026

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors of the latest business developments of the Group for the three months ended March 31, 2026 (the “**First Quarter 2026**”) based on a preliminary assessment of the unaudited consolidated management accounts of the Group and other information currently available.

Revenue Performance

The total revenue for the First Quarter 2026 was approximately RMB280 million-RMB290 million, recording a period-on-period increase of 12%-16% as compared to the same period in 2025. The revenue from in-person healthcare services for the First Quarter 2026, excluding contributions from Wuhan Dragon World, a company majority-owned by the Company following its acquisition in 2024, was approximately RMB255 million-RMB265 million, recording a period-on-period increase of 23%-28% organically. The paid patient visits of in-person healthcare services for the First Quarter 2026, was approximately 216 thousand, representing a period-on-period increase of 12%.

Business Update

- **Network Upgrading:** In February 2026, the Suzhou Huxi Institution completed its upgrade to a One-stop Healthcare Service Institution. Following the upgrade, the institution expanded its scope of services and further enhanced service capabilities. “Well-child Check-up” was upgraded to “Child Wellness and Development”, adding subspecialties such as Child Psychology, Developmental and Behavioral Pediatrics, and Pediatric Speech and Language Assessment and Therapy. Adult health management and health check-ups were also upgraded, and Physical Therapy Centre and Mental Health Department were newly established. This upgrade enhances the Suzhou Huxi institution’s ability to deliver one-stop care for all family members across the full life cycle.
- **Subscription-based Health Services:** In March 2026, our subscription-based “innovative drugs+ medical services” offering was officially launched. The initial phase focuses on three core needs – weight management, sleep and allergy – and provides an integrated solution that combines innovative drugs with online/offline consultations and long-term management. We will leverage this offering to expand into new customer segments and drive user growth.

Note: Wuhan Dragon World refers to Wuhan Shenlong Tianxia Medical Management Co., Ltd. (武漢神龍天下醫療管理有限公司), a company established in the PRC on March 14, 2014, which was acquired by our Company and became a subsidiary of the Company on March 28, 2024.

- **AI Empowerment:** By end of March 2026, the AI Family Health Record was introduced on our Mini Program in WeChat. Core features now available include: (i) AI-driven organization of users' health data, converting raw medical information into structured, decision-useful summaries; and (ii) deep integration of care plans across family members with scheduled reminders to enhance the planning and predictability of family health management. Through the AI Family Health Record, we aim to extend our services from one-off visits to full life-cycle management and to provide a professional, continuous and readily accessible personalized AI health assistant for users.

The information contained in this announcement is based solely on the Board's preliminary assessment of the current information and has not been audited or reviewed by the Company's auditors or the audit committee of the Company. Differences may arise between such figures and the data disclosed in the audited report due to review and audit adjustment. The operating data disclosed in relevant periodical reports shall prevail if there is any discrepancy.

Shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
